Abstract: Summary : Building a lifelong education system is an important strategy for China's medium and long term education reform and development plan . lifetimeConstruction of education system one Direct policy attention , But the important steps to build the system have not yet been seen in detail . Even so , lifetime The idea of education is gaining ground. , in our country constructs the lifelong education system to have its mass foundation and the time significance . This article is based on the basic consensus of the Lifetime education system in the world , to what kind of lifelong education system should China make outlook , Building legally guaranteed , Integrated , All people are serviced by the , Learner-centred lifelong education Department , trying to make a lifelong education system an image ,Suggestions for the development of lifelong education system in China .

Keywords: Lifelong education system ; lifelong education ; Lifelong Learning ; Learning Society

Lifelong Education , Lifelong Learning and learning society these three Dali read widely accepted and respected by the countries of the world , Our country in the last century The has been building a lifelong education system since the age of Important topics for reform and development . 1993 Year of the CPC Central Committee , the state The house's " Outline of China's education reform and development " first time in country " The Home education policy file uses Lifelong Education Vocabulary ,1995 Year's Education Law of the People's Republic of China 11th Clear Specify : Country adapts to socialist market economy development and society into the Step need ,Promote coordinated development of all levels of education , Build and end Good lifelong education system , Building a lifelong education system and its associated questions in the following annual report on government work and its main points refer to , Year of " National Medium-term education reform and " Development plan outline ( , -2020 year ) is the Build Complete lifelong education system ... Promote the learning of all people teach , learn from , Learning to use The goal of is promoted to education. leather with development strategy height . after more than 20 years of paving and pushing wide, lifelong education , Lifelong Learning and learning society all three ideas gradually accepted by the public in our country , and unknowingly affect People's lives . " Community School " " old university " " Open University "

Content . on the rule of law , Although no national legislation has been enacted , but Fujian , Shanghai , Taiyuan , Ningbo and other local governments successively to lifelong the enactment of educational regulations has been explored and attempted . from the overall situation view , Life-long education system with national policy and public voice " long-awaited , But the important steps to build up to date are only hear sounds , not see details .

Development of lifelong education system in China , is still groping phase . " Legal construction lag , system build free , mechanism construction ignore " [1] . These problems are prevalent , spans building lifelong teachings between the ideal and the reality of the fertility system . Even if the status quo is not happy view , But from a development perspective , China's lifelong education is in a tent Hubble development " Youth ,
lifelong education system in the times of the call The is bound to give the public a satisfactory "". so required and current great imbalance , also requires lifelong education research people seeking _ a clear way out . from 1965 year Paul * Rongran"" lifelong education " This concept so far , after half More than a century of promotion and development , constant depth of theoretical research , Solid The cumulative accumulation of experience , forms the world-wide construction The basic consensus of the lifelong education system : serving People's life , to learn Learner-Centered and ultimate goal is to realize the learning Society three basic consensus , trying to see what we want The lifelong education system built by , is a legally guaranteed , integrated Everyone is serving everyone , learner-centric Lifelong education system .

1. Constitutes a legally guaranteed lifelong education system

A mature education policy , its ultimate destination and strong security The barrier must be legislative , and only legislation can be implemented effectively , Specification policy-level maturity and specific policies . current , lifetime Education , Lifelong Learning and learning society These three ideas are getting deeper . into people's Hearts . Overview Worldwide , United States 1976 Year has been promulgated and implemented Life-Learning Method " Our neighboring Japan " 1990 year the First law devoted to lifelong education has been developed and implemented , Career Learning Revitalization Act , go to the forefront of the world ; South Korea Lifelong education legislation even specifically to the the Multi-Family Support method " level . Many countries have gone through lifelong education legislation The tough build period , transitions to a smooth stage of development . back to our country , The legislative dimension of lifelong education has been slightly behind . for This , Building lifelong education system , lifetime education legislation Role is a that cannot be ignored .

China to build a lifelong education system , its legal safeguards should be is manifold , with system guarantee , Another person supports ; with time guarantee , and have financial support ; with base set Apply construction protection , and balancing urban and rural development . for legal security disabled aspects , Sweden is ahead of the world , its Education leave "" Specify : where the total working time over the past two years exceeds Month employees , entitled Annual 5 Week of full-time education fake . "this provides a time guarantee for citizens to participate in lifelong education , To make the meeting bar People with are given an opportunity to get out of School and possibly . from this view , Road to the construction and perfection of the rule of law in China's lifelong education system re-way far .

2. Makes up from cradle to crutch An integrated lifelong education system for

The lifelong education system that China is going to form will be covered by people _ Live all phases of , the learner after formal education , if have learning needs , still have opportunity , Conditional , has time to continue subject to various types of education that meet the needs of learners . just as Paul * lang long describes , "" the development of personality is accomplished through a person's life , Education , cannot stop in childhood and youth , As long as the person is alive with , should be continued . Viewing from time , lifelong education body The system is a continuous process . at the same time , in Concrete system , any _ All stages of education are subordinate to " Lifelong education system ", does not exist " National education system " vs " Lifelong education system two education system , National education system"" should be lifelong , "end Body education system is for all Nationals . Invoke lifelong education education author Edgar * fur on "" Learn to live -- Education World bound today and tomorrow The discussion in is the : Lifelong education This is all about The read includes an education _ cut aspect , includes everything in it . The total is greater than the sum of its parts . There is not a single lifetime educational and Split " " " Education Section . in the same language , and , Lifelong education is not _ education system , instead of setting up _ The Principles on which the overall organization of the system is based , And this principle is throughout the development of every part of the system . 3 ]

The lifelong education system provides the populace with a Education Super City , at any age phase , people just want to choose " education " product , can easily get according to your personal wishes . and these " Education Products " has a different effect on everyone , Because different learners ' own learning ability and
willingness to learn are with different, but "Education Products" is provided for everyone, The is extensive and comprehensive. The role of the lifelong education system is to provide a quality, Multiple-selected Education Super city " Two to increase all learners to Education Products The acceptance of can be Force, to make learners' learning sense and learn in the whole educational process the ability to acquire increased.

3. Makes up Everyone is serving everyone network lifetime for education system

constitutes a lifelong education system, Everyone can follow their own need access to educational resources, But we're not simply education Resource Service object, Everyone should be based on their abilities, Serve the education of others in a variety of ways. This type of service service is not only in the same industry to high, Fine, Tips for developing education, should also be cross-industry, Education for the wider community, is no same level, is a multivariate selection, creation of lifelong education system No, only government power is not enough, should be shared by the whole society with effort, everyone, Each unit can according to its own Force, for the composition of the lifelong education system do its own_ Force.

individuals in their spare time, can be based on your ability, is Lifelong education offering volunteering, or part-time lecturer, or maintain rank preface, or offer site, or actively advertise, become your own life Scope Learning agents and redeveloped resources. in home life Middle, Each family member will do the subject of learning, and others to The learning of a member provides encouragement and help, inter-family intergenerational learning and The cultivation of a family learning atmosphere for the whole society learning Ethos Action is an important.

Enterprise in the process of implementing a lifelong education system, to both own Employees, also responsible for society: for job seeker, holding state-approved continuing education qualifications and professional qualifications, To be recruited; for active employees, provides opportunities for on-the-job training, Branch hold and encourage, Employees can choose out paid study, can also receive Internal Enterprise Training, does not buckle because employees have learning requirements to pay, block Promotions, Instead, for further study, job offers better jobs; for other social members, to convert the The Public service is part of the day-to-day activities of your enterprise, do from all available, organizing old age classes, Donate to create public culture set apply, to hold a public display lecture, etc., In a wide variety of forms for the social member offers a variety of learning options.

School Education resources are not just for school learning live, also serve social. If school resources are open to society, teachers at school, Students are also more exposed to society, service will, Make teachers and students better develop the consciousness of serving the Society, recognizing Responsibility as a member of the Community. School students can to be based on personal interests and abilities, Volunteer in a social position people; School classrooms, Library, Playground, The gym can also be used in Opening time for students not attending; "School-Enterprise cooperation " also go to _ Step Enhanced, implementing student, School, Enterprise, Social multiple benefits
allegedly wins all.

Services for the life-long education system can be embodied not only in learning, allow help, also includes provision for learning sites, to learn Learning funds support, dedication to organization services, site Health maintain above, lifelong education system needs to implement all parties resources Maximum consolidation and utilization, a rich and varied for everyone choose to provide possible, and this Education Network The formation of is not a single A single Government or one of the civil society's efforts can be achieved, must be a joint effort of the whole society, To make the stars of the crowd. fire, The vast expanse of the lifelong education system is the original.

4. Constitutes a learner-centred lifelong education system

As the Chinese adult education expert Professor Gao Zhimin put forward the, ""return to rich adult life World, Walk into the colorful adult essence Shenzhou home "[4], The building of a lifelong education system
should also be based on learning to center. Mature lifelong education system with learner lifetime Learning consciousness inseparable, The system should complete the for learners Good selection platform, providing education that learners really need.

The parent of a parent can use the, receives Good parenting knowledge, Guarantee children to be born healthily, and and well cared for. Scientific feeding, take careof, does not cause a failure to be properly treated or neglected because of a, To make the small child unexpected, damage Health.

School Education under the lifelong education system is still very high value, because the ability to develop in school education is the Person the Important foundation of the development. Previous study by Australian adults Proven work results, Early basic education better adult, get more benefits from, culture at this stageability to express, writing ability, communication Capabilities, Understanding and Basic information technology capabilities are closely linked to future developments. [5] so, emphasize lifelong education, is not a neglect of schooling, opposite, should pay more attention to school education, and should be in the school education phaseEducate students about lifelong learning, in the life-long education system School Education, relative to today's status, student in school, should be the test, and so on the pressure will greatly reduce the.

Young people who miss the opportunity for academic education for various reasons can in the continuing education phase, According to their needs and levels, freely Select Select all types of education or vocational education, get national EC one standard qualification, And according to this, choose the right job. for; On-the-job staff can be accepted to upgrade their professional skills for vocational education, and can be supported and approved by the organization; An elderly employee who is retiring can be in the original workplace or in the same organization District to get help adjusting their mentality of mental health, etc. teaching education, can be in your own living area Lao, A sense of the sense, Happy", or even worthiness.

5. Epilogue

After this lifelong education system, The mindset of the people will come from But then change, Many social issues such as basic education rank section's choice ofSchool is difficult, floating population can't integrate into new city life etc all will be resolved. when education becomes one a continuous procedure when, People's perceptions of success and failure are different. If a person in the course of his life's education at a certain age and failed at a certain stage, He'll have another chance. He is no longer the will not be banished to the abyss of failure for life. [3] Edgar • The beautiful vision depicted by the fur will be implemented. when children and parents recognize that learning is a lifelong process, except for schools Outside education There is also a rich variety of out-of-school education you can choose, on A certain _ The success of a stage test is not directly related to the future of the Job and quality of life, People automatically their mentality becomes peaceful, More emphasis on learning processes and practices knowledge, instead of taking an exam too heavily, causes it to be in a _ stage pressure surge, causes psychological, Negative aspects of the bodyring.

A good idea for building a lifelong education system in our national Dream "", want to be legally guaranteed, last lifetime, learner-centric, Everyone's web Life education system, make everyone have the will to learn to want to learn XI, have learning opportunities to learn, have learning ability to learn XI, Service Awareness help learning, requires the community to work together Force. only implement lifelong education legislation, Change traditional learning concept, Set Service awareness, to help everyone develop for life, There are The dream of lifelong education system that helps society to develop harmoniously is now solid.
