**Keywords:** Adult Education ; Lifelong Education ; Inner Contact

---

## 1. Lifelong education is the guiding theory of adult education

For adult education , Lifelong education is the dominant Theoretical system , only guided by the philosophy of lifelong education , Adult Education teaching goal ,instructional design , Teaching Management to work smoothly . no then , Adult education prone to positioning errors , hard to implement its price value . in the process of innovative development of adult education , lifelong education The theory can position and guide changes in related fields , is not " missing rationale ". influenced by the philosophy of lifelong education , adult teach The value of the breeding can be elevated . When lifelong education ideas are presented, Adult education begins to be recognized by more and more people , and get Better Development . in turn , Practice of adult education go back to \_ step abundant rich connotation of lifelong education , This is one of life-long education and adult education most no Obvious connection .

## 2. Adult Education is a practical way of lifelong learning

Lifelong education concept can promote the development of adult education , and The development of human education can also enter The \_ Step rich lifelong education philosophy inside Culvert . advocate for lifelong education The main goal is to further Promote the development of adult education , Adult Education is a lifelong educational system an integral and important part of . Experience shows that , Adult Education Development , Practice for lifelong education , There is a significant between The proportional relationship between is . so , When we exclude various obstacles , for adults teach to Create better conditions after development , Lifelong education system The can better establish . due to the existence of lifelong education and adult education the Obvious difference between the the and practice , so to prevent lifelong education from becoming a unrealistic slogan , We have to accelerate the development of adult education , only There's a high level of adult education , for lifelong education to end with work . from the nature of education , Lifelong education is to promote people's free and comprehensive development . show , Adult education based on lifelong learningEducation ,, have far-reaching implications for the entire educational development .

## 3. Lifelong education is the ultimate goal of adult education

Existing Theoretical studies indicate that , Lifelong education is a Final Purpose . on the one hand , Adult education is to achieve lifelong learning not exhaust power . on the internal relationship between lifelong

education and adult learning investigate , Some scholars compare adult education to lifelong education ' train header "" Adult education is the inexhaustible driving force for lifelong learning , its importance self-evident can even say , No adult education , lifetime Education thoughts will not produce. so , Adult education is lifelong teaching The basis of the fertility philosophy is other aspect , Quality of adult education is standard of development for lifelong education . According to relevant theory , Adult Education is the main content of lifelong educational practice , Adult Education Quality is the standard of lifelong education development. , is considered a social The idea of lifelong education is an important symbol of the establishment events on , Throughout the education system , lifelong education at its core bit . and in lifelong education system , Adult Education has a decision affect . If there is no high level of adult education development , then lifelong education will be difficult to realize its value .

Overall , lifelong education and adult education on the mass knowledge of the Cumulative and self-capability promotion have positive effects , comparison , Adult Education biased towards practice , Lifelong education is more of a \_ ideas and ideas , Is widely available in academic research . lifetime education based on adult education practice , But it covers more add rich , is a very rich frontier education concept . Adult education Birth and development of breeding , not only brings the first higher education to the \_ set Challenge , and greatly promote the development of lifelong education in the country , is The provides a solid foundation for perfecting the education system . in New Era , to changes to meet the needs of the social workforce , We need to accelerate the teaching Fertility reform , Creating conditions for adult education .

three , promoting adult education in China based on lifelong educational concept path to fertility

#### 1) Set up the concept of lifelong education

in the process of promoting the development of adult education , first need to harden The idea of lifelong education , Let lifelong education idea become adult educational hair i - The leading thoughts of the show . to moderately throw away the traditional teaching philosophy and the side of the "" , establish the concept of lifelong education , let adult education and primary education to be in a balanced state of development , No undue emphasis on pre-education and ignoring Volkswagen \_ Learning Progress . and in the adult education process , The subject status of the educator should be further enhanced , themselves The learning goals of should also be more explicit. after all , Adult education is to A self-conscious behavior of the person in the year , Their sense of independence is stronger , selection and The ability to judge is also not weak . so , We want to emphasize that the educated people's principal status , Let them have enough courage with educators to make the necessary interaction , To resolve problems they face during the learning process . only have transition Ideas , , break old educational ideas , Discard traditional view Limitations on teaching age in read ,vigorously advocating lifelong education , Adult Education The development of the education has objective realistic conditions . If people still have an obsession with education and lifelong education , considers it a non-inflow Education form , so the development of Chinese adult education brings very Negative effects2in primary education , we learned about ' an idle youth , boss To be sad " quotes , This tells us that the main period for the ,, Learning is the teen stage , the effect of learning after adulthood will be greatly reduced . honest then , This concept has the \_ Scientific Nature , Human Learning for Teens Learning and memory are usually strong ,We need to use this Hard Times study . But we also have to realize that , learning should not be something at a particular stage , It should go through our \_ Live . now , only establish the ideal belief of lifelong learning , We is expected to make a difference in science and technology , really become useful to society top talent for is . today , We should follow the philosophy of lifelong education , To cut Real Development Adult Education , let lifelong education and adult education be able to Higher Education form complementary Advantage , Become a relatively complete teaching system . Total , After teaching concept changes , Teachers of adult colleges actively act as the Facilitator and facilitator of the educator's study , and then A variety of innovative education channels to cooperate with the educated people , total Complete

the Prescribed learning task . outside the teaching task , teacher You also need to develop an educated learner's autonomic learning ability , encourage them to More participation in reading and learning time outside adult education , doing one Love learning , Lifelong Learning person .

Look at the historical development process , Adult Education originated earlier , in its After many years , the idea of lifelong education is gradually . Although in the long history of the process , Primary and higher education for the long run According to social mainstream , become a standard education in the public mind . however , with the development of economy and society and the change of talent demand , people seek job pressure is getting louder , existing Initial higher education is not enough requirements for social talent development , Therefore, it is necessary for us to develop a lifelong education system with the for adult education. , for social development for a steady stream of talents . In fact , Development of modern society , to the return of the education of Rationality . where , vigorously develop adult education the the key link is \_ . to know , Many young people on the job after , easy to appear knowledge reserve not enough , is not strong in its own power wait a minute . title , Therefore, it is necessary to continue to study in free time , and learning and workspace Find balance . in the adult education process , We also need to Strengthen the ability training of the educated people , focus on their autonomous learning 's ability . For example , Common Summary of the learning process , To lift a reverse three , theory to practice , can be moderate in adult education apply . on this basis , We also need to be in adult education , guided lifelong learning for educated people , So that they can consciously Accept lifelong education , Become a loving learning , will learn as an interest and the person in pursuit . for lifelong education The teaching of, methods should be to become the focus of teaching , what's called ' grant to fish , catch . on the basis of method training , plus interest culture and The guide of the concept , Lifelong education is easy to achieve .

#### Continuous improvement of adult education management level

because the idea of lifelong education is free , Open , Fair and special point , can focus on the long term , for future development of adult education "" guiding role , So we need to be based on lifelong education. Read , forward \_ step to optimize internal administration for adult education . For example , on condition , time , We also need to further liberalize the adult education system about bundle , Promoting the scientific development of adult education management . on the one hand , to face to the general public , initiate higher level of adult education , and make the end the idea of body education is in the deep .; other \_ aspect , to continuously promote adults Quality of education , make new efforts to monitor administration , make Adult education can be developed scientifically and correctly . plus , on course Scheduling aspects , Adult education can also moderately increase flexibility , in Learn time , places to learn more choices for education Optional space . while in the teaching process , Classroom atmosphere can be more active , appropriate teaching innovations and teacher-student interaction should be respected . pass Similar improvements , Public participation in adult education can be done to promotion , This facilitates development in related areas . other , on condition with time , We also need to introduce and nurture in talent , Education Resources send and take advantage of , Devote more effort to teaching funds , make the Universal to receive adult education in a good social environment , and set up the philosophy of lifelong education and learning .

of course , because one of the main purposes of adult education is to Promote the ability of a social worker , So when conditions are available , We You can also further promote the relationship between the school and the employer, Make a recommendation for your own people. , on the other hand also uses the \_ External Resources set by ,and in accordance with the employer's requirements to culture raise more people , create for adult education and lifelong educational development better conditions . For example , Current delegation culture of many units way , is a more efficient way to adult education , It is well balance The learning and work of an educated person , and get some funding Gold support . other , We can also actively develop community adult education , make community an important platform for mass learning , Play lifelong education action . In fact , Current development level of adult education in China is not high , on entrance examination , certification , There

is still a in areas such as employment guidance Many problems . under this condition , We mustn't ignore adults value of education , no longer let it be marginalized . opposite , Under the guidance of lifelong education concept , forward \_ Step Promotion Adult teaching level of education . to position adult education exactly , and under normalized system administration, guiding and regulating adult education fan , strive to build a new type of common development of adult and lifelong education teaching system .

### **3. actively use information technology means**

with the development of network technology , Opening of adult education in China more obvious , remote education , Network teaching has gradually developed to . For example , in English learning , Civil service exams , beginning with Six-level June , learning platforms such as Chinese public Schools . under this condition , base Adult Education new channel on internet platform , can break past single Talent Training Model , Promoting the pluralistic development of adult education . and modern distance education new teaching modes , Taking our country to the The new era of rapid development of lifelong education , also opens up the for adult education Huge space . based on previous development experience , Information technology Adult Education for platform is A more cost-effective educational initiative the , is considered a breakthrough in future adult education .. because this , based on the concept of lifelong education , We can further rely on the internet web platform , continue to open up more ways to learn adult education , to let more people with can easily learn knowledge and skills . We can make full use of the Internet Platform , education vectors such as social service platform , All- round drive Developments in adult education and lifelong education , increasing adult education horizontal at the same time , Let the idea of lifelong education take root in fact , Information Network technology applications have become adult education The main driver for improvement , It's a lot closer to the public. distance from adult education , Let more people continue to learn , and then access to adult education . and after network teaching , Adult education The time and space problems that exist in the Yukon can be resolved , Volkswagen to accept adult education more freely and openly . so to i can get rid of the previous single Teacher-student teaching mode , to Volkswagen Multi-Select opportunity . in this way , Teaching resources for adult education source can be fully exploited , goal of personalized talent training also easier to implement . in addition , in instructional video production , Database construction aspects of teaching management , to make more effort . summary , adult Development of Education , must adapt to information technology upgrades such as multimedia requirement , Optimizing adult education management platform as far as possible , Let the letter The richness of the sharing and teaching means of the rest of the resource can be up to a new level .

actually , Adult Education has become the primary practice of lifelong learning approach , in Information Age , We can actively use all kinds of network ping Console and network resources , open up more channels for the development of adult education .

such as , We can try remote teaching , new models such as network teaching Teaching mode , and develop some professional learning sites , for the vast majority of social workers use . In fact , for Some quality network teaching resources source , Moderate charges can also be accepted by the general public , therefore network-based Platform Development Adult Education , has great potential . We can follow The on the Information network platform with high popularity , for lifelong education and adults Education offers more teaching options .

Make full use of social public resources

Many of the public resources in society , such as TV broadcast , News media , Museum , Science and Technology Museum etc , All expected to be the field of lifelong education to , for us . so , actively promote adult colleges and outside groups Woven Cooperative exchanges , also promote the development level of our adult education \_Big way . For example , We can run the adult education Area extended to society , with Off-campus community , Rural Connection , Shape into a teaching system based on lifelong education , then , We're on the Promise form a good learning atmosphere in the Society , for the public to and adult education , lifelong education is tightly linked .

Of course , in this procedure , The government department also needs to assume its responsibilities and obligations , continue to provide policy for the development of adult education and financial support . For example , Job training in some organizations , Continuing Education , The Government can act as an intermediary , for them provide certain social resources , help them complete education and training . to a large extent , The use level of adult education for public resources , vs government departments are most relevant , There is an inevitable combination of Department . also , government to eliminate excessive utilitarianism and business of adult education Karmic Development , view it as a fundamental area of education , Give it more More development space . is based on adult education practice , working toward progress towards lifelong education . in this procedure , i to coordinate adult education-related organizations and individuals , make more The participant's philosophy of lifelong education .

four , closing in the Information Age , Lifelong learning is a must for modern people not less , therefore advocating lifelong education , Develop adult education compliance EducationDevelopment Rules . in accordance with the concept of lifelong education , vigorously develop adults Education has many benefits for national economic and social development . because this , in modern education , The importance of adult education is highlighting , i we need from Infrastructure , Teaching management level , information construction etc side face , further promote adult education and lifelong educational development . for some backward teaching methods and means , to innovate in time , to have The development of adult education is more in line with the requirements of lifelong learning . only the lifelong education philosophy leads to, coordinated education with lifelong education Show, to promote the development level of our adult education .
