others .health The goal of education is to make students feel the meaning of life. ,Feel the vicissitudes of life ,

to themselves for a brief limited lifetime Life better plan and use , Make a good social relationship , set A correct outlook on life and values . Life Education is for controlling the green teen suicide rate , to guide teens to a correct understanding of life and to be mentioned out of . Life Education thinks life is more than just a shell ., also Spirit carrier , need strong mental strength to support .

1.3 the relationship between and

The relationship between life education and lifelong education is close , Live Life education should become lifelong education . Life Education is not only for green teen ,should also accompany the student's growth for Life . cannot ignore life education because of the , Students ' understanding of life varies with the the growth , at various stages of growth , Life teaches The IS not to be ignored ..

Life education must be lifelong. , Because students are growing All stages of the are inseparable from life education help , encounter different difficulties and puzzles ,need Life Education help guide . should take the concept of lifelong education , Long-term and effective life education , targeting different issues at different stages , work out effective solution . mining take different teaching content and measures , The helps students of different stages . Life Education is also indispensable in lifelong education , If you lose participation in life education , Learning only scientific knowledge and thoughts education content , students still have doubts and lost beliefs about life , There are doubts and doubts about life this happens. , its Other knowledge learned by will become meaningless and useful .

2. The dimensions and significance of life education development

2.1 The meaning of the legal dimension

from a social and legal standpoint , Life Education is social send Show objective needs . People are the subject of society , people with social enter Step , also constantly improving and progressing , Life is gradually in society alienation , causes benefits and values to diversify . Students ' awareness of life insufficient to cause lack of belief , to confuse life and life , Form Unhealthy psychology , will make life for yourself and others and socially harmful things , From the legal dimension this is very negative . must carry out life education for this situation , let students Take the right look at life , have positive attitude to life , treat life not confused , has something you love , can create avalue , Let students have a more harmonious life state and more Healthy psychology , Thus promoting a more harmonious and stable development of society .

2.2 The meaning of the survival requirements

from the perspective of survival requirements , Life Education is the education of this quality . with life to accept and host a better education , Education is Life-Service ,to give students more ability to survive , face can be stronger for life's frustrations . through life education can to recognize the meaning and value of life , enables people to have more capabilities , Discover your potential capabilities , make life more full , with more glorious meaning of life . Life Education is not in the education chain missing _Section , Life Education not only helps students live Security education and psychological grooming , can help students master Save skills , to survive . Life Education needs to follow the "" human-oriented philosophy , Learn to focus on survival and development , finds its own health meaning , and take real action to make that sense .

2.3 The meaning of human nature

from an essential point of view , Life Education is a student's development within On Demand . Students learn in the process of learning in addition to the knowledge of the book, should also be fully developed , found in the development process from interests and expertise , Develop your potential . in life's past threads , Take care of your relationship with society , and keep their own personality , show their true colors , Make your mind and school work together ., At the same time also to ensure physical and mental health , All-round to promote mutual development . the Stage of student learning is a period of mental immaturity , Very sensitive and easy to Impulse, It's very repetitive . , So once you learn the when something goes wrong , If you don't get timely guidance and justification solution , will easily form negative and decadent emotions. Student's lack of social and life

experience with , has no practical ability , Causes the to be seen To Issue when the error occurs .

3. Perfect Life education in the context of lifelong learning fertility concept

3.1 establishing the ideology of life education

in the context of lifelong education , To implement and improve life teaching concept of education , must set up the ideology of life education . learning for The purpose of the the education method must be reformed , value students spiritual World and real life . Add to the Humanities in education bosom, education should be based on the healthy development of students as , adopting science Effective teaching methods , Let students recognize the nature of life , Find birth Life's Fulfillment . the core concept of life education is the respect for students heavy , encourages students to have their own personality . Let students have a life letter back , to dominate its own life activities .for students about life to dull status , needs to train students to think and to life 's understanding . more topics related to life theme education activities , Exercise the students ' character and psychology , let students pursue heart Spiritual Education , Better mobilize inner feelings , To beautify your mind and mold Sentiment's purpose . So you can have your own rules of existence , highlighting out features , Keep Affirming yourself , Control your Destiny , Let your body and mind develop harmoniously , Create and implement self for society values .

only to establish the ideology of life education , ideologically Student offers good help , Let students correct themselves in time Extreme Mood , appreciate the value of life , can better learn to control from inner Feelings , avoid rebellious mind , stop hurting yourself and others ' behavior , to put your time and experience more intentionallyThe things of righteousness , Don't waste life and practice , realize your own life price value , take the direction of your life , becomes useful to society and the state person .

3.2 to establish course content for life education

First , to strengthen the construction of teachers ' team , Select excellent Life education teacher , help students create better learning conditions . teachers should to Emphasize student's life education , full respect and care for students , Educating and influencing students on the Mind , Eliminate students from life now faint consciousness, Develop students ' love of Life . only self life-conscious high-awareness , to make life more dynamic . School to combine their advantages , establishes its own life education teachers ' Corps ' team , stabilize quality of teaching and teachers , to better develop Life Education for the system .

Second , To the school , consolidation of family and social resources , To form an education system . in the course of education, school education as one.

Social and family Education as a supplement . full complement to life teaching education, assumes different functions . government agencies need to set up relevantlife Education institutions , provides a good guarantee and foundation for it . social you should do more active educational activities , passes Life Education through to thesocial activities , Create a better educational climate . News and web "" should also create a good Opinion guide , Propagate the right concept of life ; in the home , always stay relaxed and loving environment , Let students grow in a healthy and happy environment with , experience love and happiness .

Third , to increase the potential of classroom teaching , set up a good lesson Process System , Let students understand and view life more intuitively . open Special Life Education course , Education theory , philosophy etc as Compulsory course for Life education , and add care , Natural , Scientific and so on capacity . current , The curriculum system for life education is less . , so an urgent need to establish a perfect system , theory knowledge and life education Practice activities Combined , Carry out a wide range of compulsory and elective courses , make learning live a more comprehensive and solid understanding of life , is not only theoretically the its awareness , In practice there is also a rational understanding of the . can also be combined with other disciplines in the course , Enrich teaching content and form , Let students not feel the boredom of life education , to Challenge teaching what to learn , to integrate life education skillfully in student routines In the course of learning , Let the students realize life education unconsciously . The nature of , has a profound effect on it , leaves a deeper

Impressions .

3.3 Building a Life Education project system

First , to establish a networked psychological channel , adds a pair of Multiple discussion of life . provides professional counseling for students Division , develop student's psychological counseling ability , allow students to interact with each other to enlighten and explore . arranges counseling for each student , solve students ' various life problems as soon as possible , resolve its heart pressure the , constitutes the student's confiding channel . has this way , only can kill a student's various psychological problems in the cradle , let negative mood resolved in a timely manner , do not accumulate in psychology . based on no Same student's psychological problem, targeted, detailed guidance. make , in order to do a solid job in life education , Let life education The work works effectively .

Second , to actively explore effective ways of life education , To improve quality of life education . Rich forms of Life education , multiple histology Student participation in sociocultural activities , getting a sense of life in practical activities , Implementing Self-Worth . enables students to work better from The Me admin and Services , has more practical social skills . Social reality The form of practice must be reasonably arranged and innovated , to more students Line Moral education , Let students know more about celebrity stories , invitation name lecture by teacher , propagate and introduce the value of life , let students have progress power and target , Be optimistic when encountering problems and difficulties to face , instead of self-defeating , or your own misfortune boils down to someone else's body , think it's someone else's fault , so easy to produce Bad psychology , cause great harm . Learn more about life teaching learning how to explore , develops a more diversified teaching style , let students have more insight into teaching practice .

Third , is implemented in a new way , to respect the life price value to core concept , realize the meaning of life in the love of Life . mining help people with difficulty in scientific and effective way , to resolve their questions and life needs . School as a small society , adopting social worker theories and methods practice , Whether formal or non- Students of the formal education system , All should give care and help , resolve Their mental problems and mental confusion . value for social work concept and method tips , combined with life education work , Better help students adapt to learning and life , help their healthy growth , Show Health Life Education's meaning and advantage . in life education , active to explore new ways of teaching , boldly apply to life education to , attracting student participation in life education , Transfer students active sex , Let students learn more about life Education , Remember more secure .four , closing

To summarize , Life education should be a lifelong education , runs through The entire process of education . provide help for students at different stages of life Help and correct boot . Perfecting life in the context of lifelong education education system , to play a better role . so you have to create A good fine ideological education system, using the instructional content of the system , combines social Practice Teaching Project , so that you can actually learn and for students Live for help , Become a person of value positive energy , implementing its own Human value , promote social development .
